IN REPLY REFER TO:

Office of the Commandant

18 JUL 1968

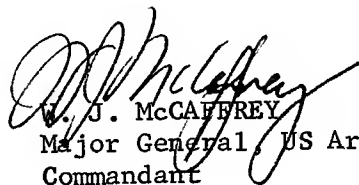

Dear Mr. Duckett:

It was a pleasure to learn from Colonel FitzGerald that you have agreed to address the Army War College on "The Contribution of Science and Technology to the Strategic Threat of the USSR." Your lecture, presently scheduled for 6 November, is an important element of Course 3, "The Strategic Threats of the Communist States." I know that you will contribute much to the class' understanding of the current Soviet role in the world.

Members of my staff will provide additional details on the lecture and the administrative arrangements for your visit. In the meanwhile, it would be helpful if you would complete the inclosed biographical data form and return it to us.

We are looking forward to your visit to the College.

Sincerely,

W. J. McCaffrey
Major General, US Army
Commandant
